## Test & Installation

Hey guys,

we installed the application to an iPhone 6 and iPhone 7 Plus:

iPhone 7 Plus:

As you see everything works fine!

Check out our Testing Blog Post for our Test / CI Setup.
As those of you who followed our History of Pain during Software Engineering class know that we had struggles to setup everything for conservative software engineering (as asked in the grading criteria). To fulfill at least the most grading criteria for CI & Testing we did everything possible for our technology.

Warm regards
